MINECRAFT: STORY MODE EP

IT'S MINECRAFT, BUT NOT AS WE KNOW IT!

It's finally here! After months of waiting to get our hands on the one of the most exciting games of the year, we've finally played it and... we think it's pretty good!

Minecraft Story Mode is a completely different type of game from the Minecraft we know. You control Jesse (who can be either a boy or a girl) who along with his/her friends are hoping to win a local building competition to win entry to Ender Con.

Jesse and co. really want to go to the convention because the Order of the Stone, the famous heroes that took on an Ender Dragon, will be appearing!

There's some puzzle-solving in the game, which is quite fun and usually needs you to get crafting a specific item.

Although the crafting in the game is really limited to these puzzles, this isn't like Minecraft – the focus of the gameplay is to make decisions that will affect how Jesse's story plays out.

"THE JOKES ARE REALLY FUNNY!"

There are also a couple of action, fighting and chase scenes in the first two

EW

GENRE: Adventure
PLATFORM: Multi

P 1 & 2

episodes, which really help to keep the game exciting – the controls aren't the best we've ever played, but they're still fun.

The jokes in the game are really funny, and if you like watching MC vids on YouTube, you'll love the game. The graphics and characters all look really cool and the music is a perfect match for the story.

Episodes 1 and 2 do a good job of introducing all of the main characters in just two hours of gameplay, and does enough to get players pumped for the epic journey ahead! With another four episodes to come, we're already counting down the days until the next ep.

Episodes 1 and 2 are a promising start to Story Mode's adventure! We've made some big decisions and now we can't wait to see what happens next!

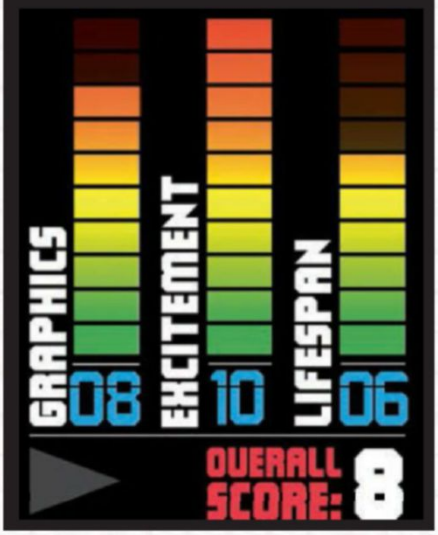

THE GOOD

- IT'S A NEW MINECRAFT GAME!
- THE DECISIONS ARE NAIL BITING!
- THE STORY IS REALLY COOL!

THE BAD

- WAITING FOR THE NEXT EPISODE IS A NIGHTMARE.
- SOME OF THE CONTROLS AREN'T GREAT.

AND THE RESULT

WE SAY...

A REALLY COOL NEW TAKE ON MINECRAFT – IT'S TOTALLY DIFFERENT FROM THE ORIGINAL. IF YOU LOVE MINECRAFT YOU HAVE TO CHECK IT OUT!

DON'T BE A MINECRAFT NOOB!

THESE THINGS SET APART THE NOOBS FROM THE PROS!

1. Digging straight down. Just no.

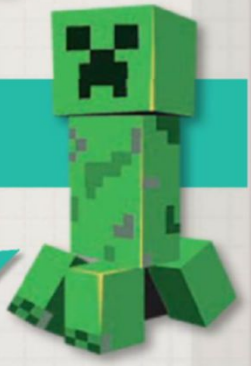

2. Trying to make friends with a Ghast. Face palm!
3. Touching a cactus. OUCH.

4. Seeing a little pool. Stepping in. Womp, womp, womp!

5. Playing with fire.
6. Deciding to take a nap in The Nether.

7. Digging straight up. Oh, hello lava.

8. Adopting a Creeper as a pet. But they're cute, right?
9. Wandering around without marking out your location.
10. Swimming in lava. Huh? What do you mean it's not like a hot tub?

SKELETONS!

NAME: Skeleton
FIRST APPEARANCE: Minecraft 0.24_02

COOL

5 FACTS ABOUT SKELETONS!

1. Skeletons can't see you through transparent blocks.
2. **Creepers killed by a skeleton's arrow will drop a music disc.**
3. Skeletons make the sound of rattling bones, but some people think it sounds like a xylophone.
4. **At Halloween, skeletons will spawn wearing a pumpkin or jack o' lantern.**
5. If they're caught in direct sunlight they will catch fire!

DAMAGE ALERT!

If a skeleton is killed by a charged creeper's explosion, it will drop its head! Eek.

POWER UP!

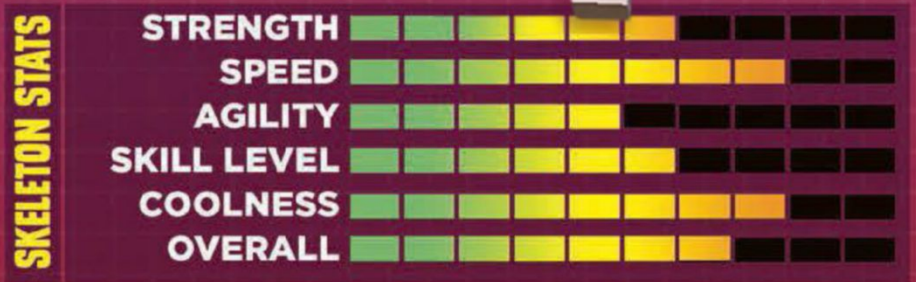

When they're holding a bow, skeletons move at zombie speed. But when they're holding an arrow, they move as fast as zombie pigmen. Run, guys!

DID YOU KNOW?

Skeletons are a useful mob to farm. They drop arrows and bones when they're killed – arrows take a long time to create and bones can be turned into bonemeal, which grows into trees and crops. Bones can also be used to tame wild wolves!

CATCH UP ON SOME OF THE BEST GAMES OF THE YEAR!

TRANSFORMERS DEVASTATION

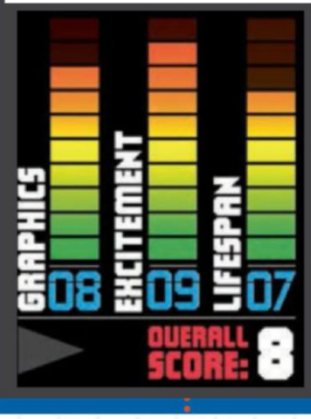

Devastation is probably our favourite **Transformers** game ever! The action is non-stop, the story is cool and the graphics look exactly like an old-school cartoon – it's so awesome!

The boss fights are huge and getting to take down evil **Transformers** playing as **Optimus Prime**, **Bumblebee**, **Grimlock** and more is so sweet!

The game is great fun and definitely worth buying if you're a **Transformers** fan or just a fan of robots smashing each other in the face!

SUPER MEAT BOY

Despite only just coming out on PS4 in October, **Super Meat Boy** is actually five years old! This doesn't stop it being one of the best games you can pick up now with your hard earned pocket money!

Super Meat Boy is essentially a really hard **Mario** game, where instead of controlling a hero plumber, you're guiding a cube of meat through insane death-traps and incredible boss battles!

SMB is an epic game and its challenging levels will push your platforming skills to the max!

CASTLE CRASHERS REMASTERED

GENRE: Beat 'em up
PLATFORM: Multi

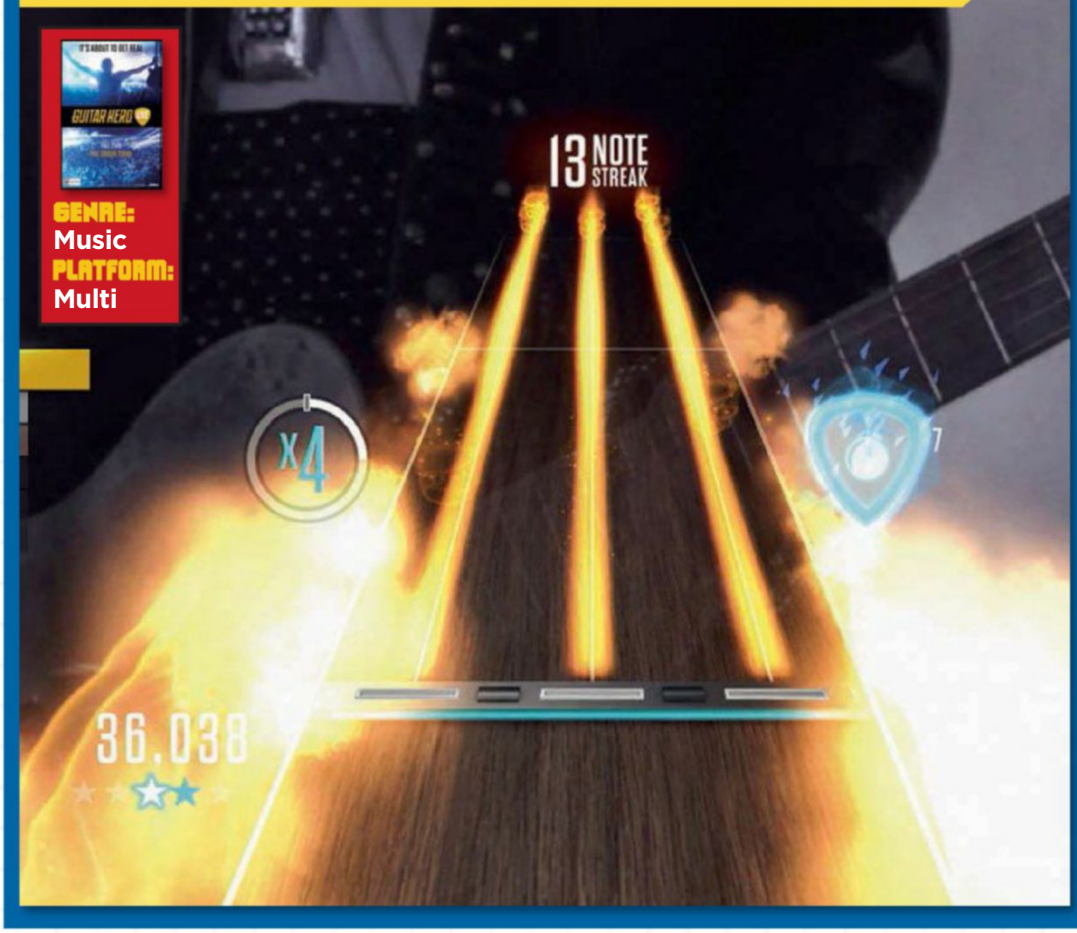

Castle Crashers Remastered looks like no other game and the action will literally blow your mind! The story is pretty standard – you play as a knight who has to take down an evil wizard and save princesses, but everything else about the game is insane!

CCR is great as a single player or MP co-op game and has a ton of unlockable characters. Plus, the new mode, Back of Barbarian, is a really fun addition. The remaster is incredible – this game has never looked or played better. A must buy!

AND THE RESULT

GUITAR HERO LIVE

GENRE: Music
PLATFORM: Multi

It's time to party like a rock star with the return of Guitar Hero! GH Live is the first Guitar Hero game in five years – the main change being a completely new controller to rock out with.

The new controller is completely different from the old one and is tricky to pick up, but once you get to grips with the more realistic controls you'll be rocking up a storm in no time!

The soundtrack is only OK, with the best songs only being available in online modes – apart from that, GHL is a top game!

Ace Combat is an awesome jet fighter that puts you in the heart of the action! When war breaks out between rival nations it's up to you to take to the skies and eliminate the enemy before it's too late!

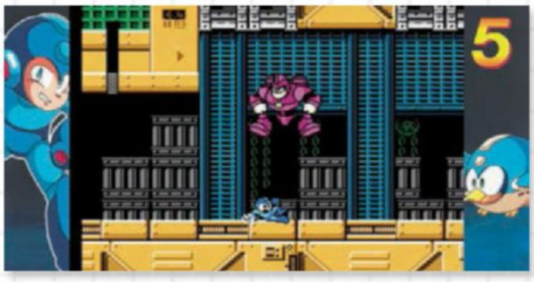

This is a quality game for handhelds and has the best flying and combat action that you can buy right now!

MEGA MAN LEGACY COLLECTION

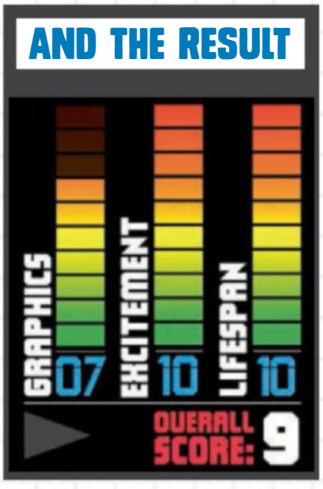

If you're a fan of platformers – get this game on your Christmas list! MMLC has the first six Mega Man games in one collection – which, if you don't already know, means that this is EPIC!

"MEGA MAN LEGACY IS EPIC!"

Mega Man 1-6 are easily among the greatest platformers ever made. The controls are slick, each level has something exciting and new and the power-ups are incredibly fun!

ROCK BAND 4

Rock Band 4 is this year's best music game – simple as that! RB4 is pretty much the same as previous Rock Band games, except everything just works a little bit better.

The only main new features are the Tour career mode and being able to improvise your own solos, which is pretty cool!

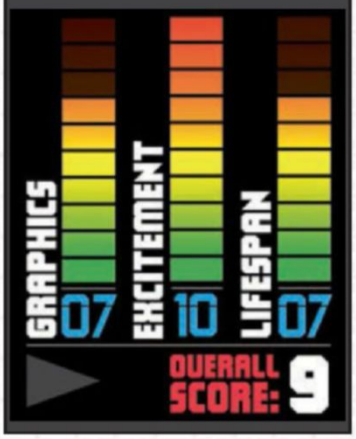

Having the option to choose guitar, bass, drums or vocals is as cool as ever. The collection of songs on the disc are OK, but thankfully all of the previous Rock Band songs are compatible, so there's heaps of content that you can rock out to!

NHL 16

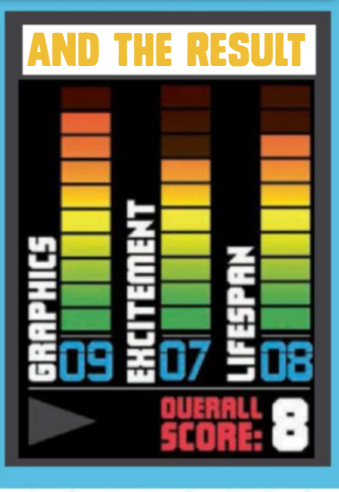

GENRE: Sport
PLATFORM: PC, Xbox One

AND THE RESULT

NHL 16 is everything last year's game should've been. Pretty much all of the game modes and features that were missing from NHL 15 are included in this year's game – making it a fantastic ice hockey game that is worth the money.

The gameplay is a little tighter than last year and the new On-Ice Trainer display feature (similar to FIFA 16's Trainer) is great for teaching you how to play the game well. The best ice hockey game ever!

MAY THE FACTS BE WITH YOU!

The noise that the TIE Fighters make is actually an elephant call mixed with a car driving on a wet street.

Some of the houses on Tatooine (which was actually Tunisia) are still used today by locals.

All of the Clone Troopers in the Star Wars films are made with CGI.

"I have a bad feeling about this"

IS SAID IN EVERY FILM.

Lightsabers can be any colour. Blue is the standard Jedi colour and red is the the standard Sith colour.

Ep VII baddie, Kylo Ren, is the first person in the movies to have a cross-guard on his lightsaber!

30 **Episode VII will take place 30 years after Episode VI.**

Harrison Ford (Han Solo) was paid £5,000 for his performance in Star Wars: Episode IV, but Alec Guinness (Obi-Wan Kenobi) earned around **£62 MILLION!**

Luke Skywalker was originally going to be named Luke Starkiller – which sounds a lot meaner!

DORTMUND 2 (110% GAMING) **3 REAL MADRID** (HAZZABAZZA19999)

Despite a great fight back from Dortmund, HarryBazza199999 broke 110% Gaming's heart with a late Ronaldo winner!

REAL MADRID 1 (110% GAMING) **1 BAYERN** (LAMBY789)

This hard-fought draw was a fair result, although Lamby789 came close to a winner, hitting the woodwork on several occasions!

REAL MADRID 3 (110% GAMING) **0 PSG** (XXDUTCHXX)

Despite a three – nil defeat, PSG dominated the play and were unlucky not to find the back of the net on multiple occasions!

STOKE CITY 2 (110% GAMING) **0 DORTMUND** (GOTHPAUL43)

This match was intense! The only thing that separated these two teams was two late goals scored after the 85 minute mark!
